

IT'S TIME TO
EXPLORE

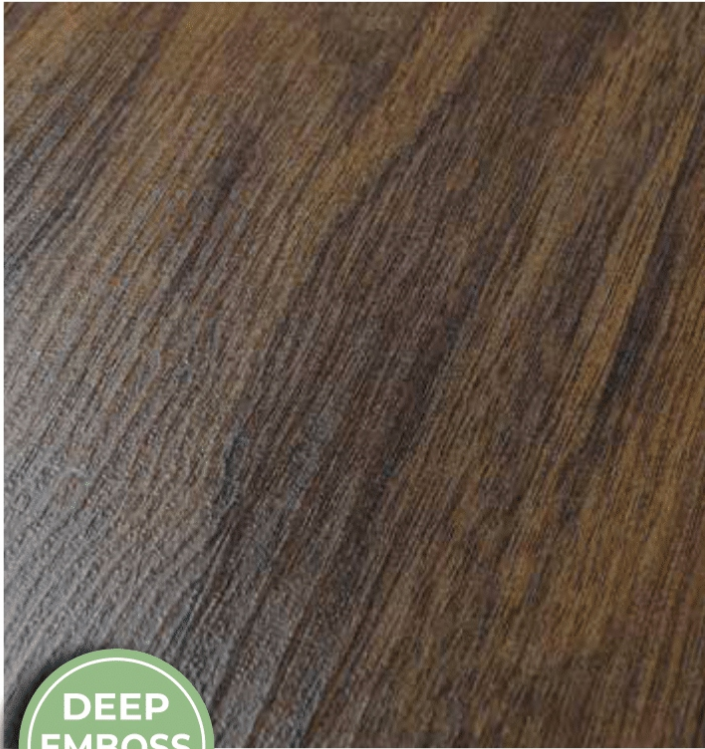

ROBINA
FLOORING

For Who Wants Quality

Nature is All its Varieties

Robina is a true master in reproducing nature in all its aspects & varieties.
The structure are true to life and exceptionally innovative.

**DEEP
EMBOSS
(DE)**

Elegant embossing with imprinted glossy lacquering effects to enhance the visual and the touch senses of the surface.

**SILKY
GLOSS
(SG)**

This innovative surface texture is to induce the combination of matt and gloss finishes simultaneously, exuding the best rustic and exotic features of the decor.

Quality Raw Materials < makes quality products >

At Robina, Quality Consistency is our main priority. Hence, we utilize only the quality assured raw materials as commitment to excellent products.

1. **HDF core board**
2. **Overlay**
3. **Decorative Paper**
4. **Backer**

HDF core board

We are proud with our **HDF core board**, made from tropical hardwood species such as Meranti, Jelutong, Acacia and etc, which are rated as one of the best in global market in term of high dimensional stability and moisture resistance properties.

Robina HDF core board's swelling was tested in accordance to European Norm EN 13329 standard and is rated well < 8%.

Being environmentally responsible, Robina HDF is made only from wood waste materials such as off-cuts, peeler core, wood slabs where in the past, these waste materials had to be disposed off. Our group has also ventured into its own forest plantation to ensure sustainable supply of raw materials for our products.

Decorative Paper

We work only with the top & reputable paper printer from Europe.

Use only high technology special ink printing to deliver high inspection & lasting visual effect, with innovative designs, natural and realistic pattern. **Authentic wood decor** provides choices of exotic wood finishing in a friendly environmental approach.

Overlay

We used only the latest liquid overlay technology, with high clarity provides high contrast surface. With Al₂O₃ particles, one of the moist resistance and hard-wearing metal, protect laminate flooring against daily wear and tear.

Backer

Special melamine resinated, enhanced formulation towards everlasting flooring stability and moisture resistance.

Reason to choose Robina Flooring

Termite Resistant

Without any chemical treatment, Robina flooring comes naturally against termite attack.

Easy Installation

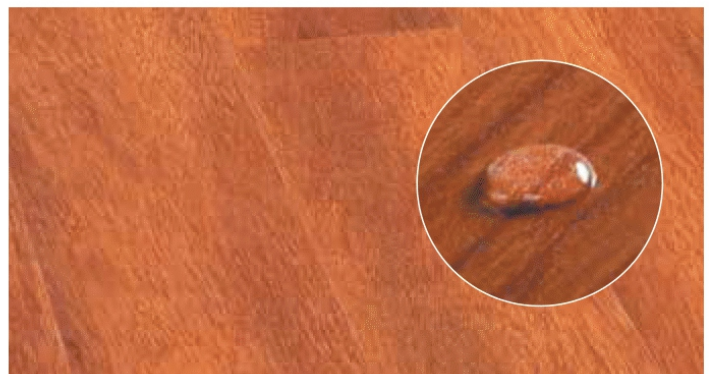

Popular among DIY market. Just click the panel together. No glue needed.

Tropical Hardwood Coreboard

In-house supply, well known by its extremely low thickness swelling & high moisture resistant.

Water Resistant

Vacuum Edge Protection System has set Robina Laminate Flooring standards towards superior and long term performance.

THE Advantages

The adherence of our product specifications to the European standards is reported and confirmed in the CE label that is placed on every pack. That is your ultimate assurance of a quality product without compromise.

WEAR RESISTANT

It can withstand scratches from office chairs with soft rubber wheels.

IMPACT RESISTANT

The tropical hardwood HDF core boards can resist sudden impacts / high heels, falling object & etc

STAINS RESISTANT

Magic markers, lipstick or nail varnish can be easily removed with a drop of acetone on a clean cloth.

FORMALDEHYDE

The laminate board only contains as much formaldehyde as real wood and therefore meets the E1 standard.

SWELLING

Tropical hardwood HDF coreboard itself applies the highest standards in respect of swelling and expansion.

CIGARETTE

A fallen burning cigarette that is for a few seconds on Robina floor won't leave the slightest trace.

NOT EASILY FLAMMABLE

Robina floor is difficult to ignite due to its tropical hardwood HDF.

TERMITE RESISTANT

Tropical hardwood HDF - low sugar content and due to its hard core, it provides termite resistance naturally without any chemical.

FADE RESISTANT

The aluminium oxide coating layer offers fading resistance from exposure to household lighting.

GLUE FREE INSTALLATION

Double locking installation helps in long term performances.

VACUUM EDGE PROTECTION

Provides perfect edge protection against moisture, dimensional stability and minimizes squeaking sound upon installation.

Robina's Unique Features

{ UTILISES ONLY THE QUALITY ASSURED RAW MATERIALS }
AS OUR COMMITMENT TO EXCELLENT PRODUCTS.

A.

OVERLAY

(100% Europe Origin)

- Highest clarity
- Above average IP-value
- Moisture resistance

B.

DECORATIVE PAPER

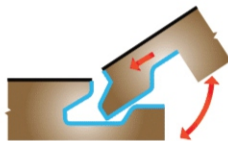

(100% Europe Origin)

- High precision printing
- Realistic patterns and trendy design
- Wide range of authentic wood décor designs

C.

EASY INSTALLATION SYSTEM

- Installation Friendly
- Click for long-term performance
- Reusable
- Proven System

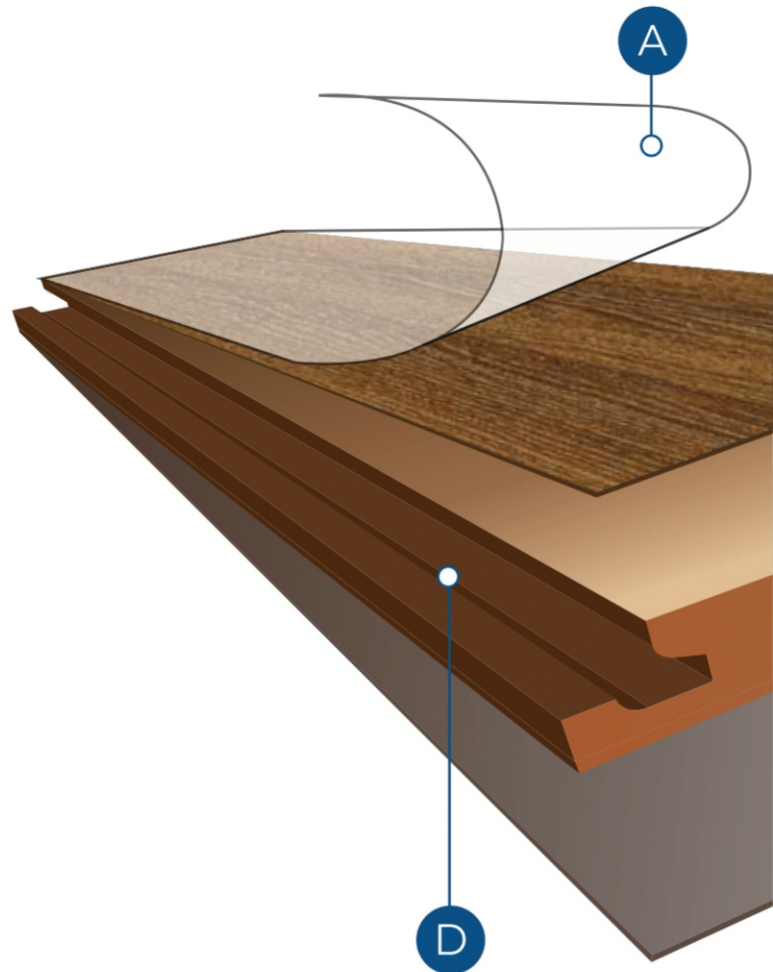

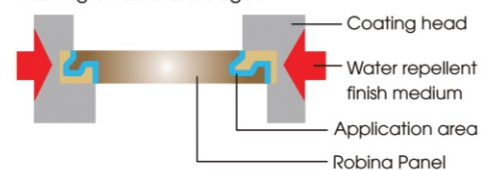

D.

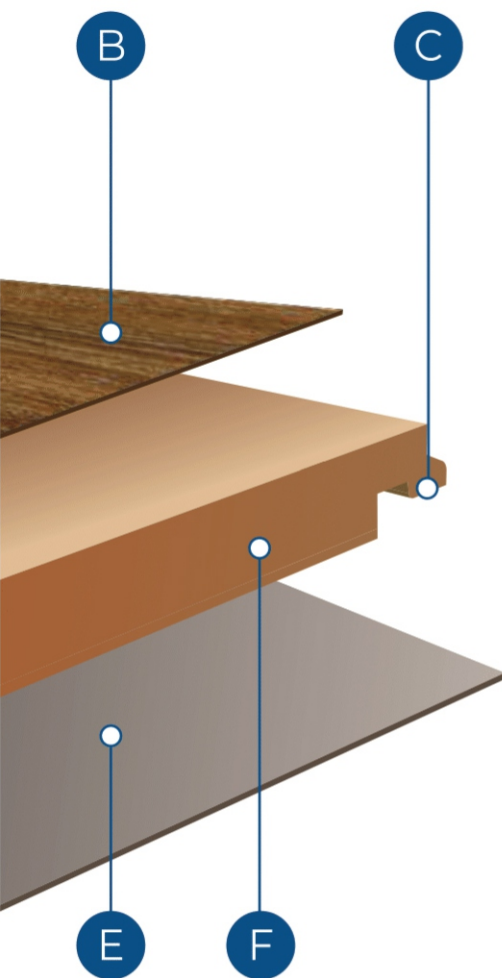

VACUUM EDGE PROTECTION SYSTEM (VEPS)

has set the Laminate Flooring standards towards superior and long term performance with advantages as below :

- Perfect edge protection against moisture
- Better dimensional stability
- Minimum squeaking sound upon installation

The VEPS offers an optimum of precision and utilization reliability for the water-repellent finishing of laminate edges

E.

BACKER

(100% Europe Origin)

- Superior moisture resistance
- Dimension stability

F.

TROPICAL HARDWOOD HDF (100% Malaysia Origin)

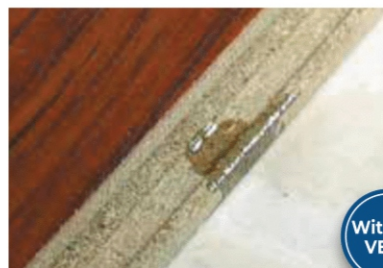

- Low thickness swelling
- High dimension stability
- Environmental friendly

TERMITE RESISTANCE

Robina floorings are scientifically proven to be greatly resilient against termite attacks, thanks to the coreboard's excellent properties.
